Mirza M.Ali

AI Software Engineer

Lahore, Punjab, Pakistan | +92 315 0773634 | mirzamali077@gmail.com
linkedin.com/in/muhammad-ali-baig-ba0950257 | github.com/Mirzaalibaig077

PROFESSIONAL SUMMARY

AI Software Engineer with hands-on experience building production-ready web applications and AI-powered systems. Skilled in Python, FastAPI, and the MERN stack, with hands-on experience developing RAG-based applications and multi-agent AI workflows using LangChain and LangGraph. Strong in REST API design, relational and vector databases, clean architecture, containerization with Docker, and delivering scalable, reliable, and maintainable software.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, PHP, SQL

Backend & APIs: FastAPI, Node.js, Express.js, NestJS, SQLAlchemy, REST API Design

Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap, Responsive Web Design

AI & Machine Learning: LangChain, LangGraph, RAG, LLM Integration, Prompt Engineering, Multi-Agent / Agentic Workflows, Vector Search, Embeddings, AI Chatbot Development

Databases: PostgreSQL, MySQL, MongoDB, FAISS, pgvector

Cloud & DevOps: AWS (S3), Docker, Git, GitHub, GitHub Actions, CI/CD

Concepts: System Design, Database Design, Clean Architecture, Containerization, Scalable Application Development

Soft Skills: Communication, Teamwork, Problem-Solving, Critical Thinking, Time Management

PROFESSIONAL EXPERIENCE

Associate Software Engineer, Datics AI — Sep 2025 – Present

Lahore, Pakistan

Guidely — Interactive Demo & Screen-Recording Platform

- Engineered the backend for Guidely, a Supademo-style interactive demo and screen-recording platform, using FastAPI, Next.js, PostgreSQL, and SQLAlchemy, exposing RESTful APIs consumed by the web client.
- Designed a normalized relational database schema to model demos, steps, and associated media, improving data integrity and query efficiency.
- Integrated LLM-based automatic step-narration generation in English and Arabic into the backend workflow, enabling bilingual, auto-explained demo steps.
- Built a hybrid file-storage system with AWS S3 and local-storage fallback, ensuring reliable, fault-tolerant media handling across the platform.

AI-Talk — RAG-Based AI Knowledge Assistant

- Developed a context-aware, RAG-based knowledge assistant with a FastAPI backend, PostgreSQL, and a FAISS vector store for semantic retrieval over custom data sources.
- Integrated LangChain for LLM orchestration and built a complete React.js frontend, enabling seamless end-to-end interaction with the chatbot.
- Refined LLM prompt templates to reduce hallucinations and improve response accuracy, enhancing overall answer quality and user experience.

WordPress / PHP Developer Intern, Glixen Technologies — Dec 2024 – Jul 2025

Lahore, Pakistan

Exertio — Freelance Marketplace WordPress Theme

- Customized WordPress themes and extended core functionality with JavaScript-based DOM manipulation to build dynamic listings, authentication flows, order processing, and admin-management interfaces.
- Delivered clean, reusable code with secure data handling and fully responsive layouts across mobile, tablet, and desktop devices.

EDUCATION

BS Information Technology, Lahore Garrison University — 2020 – 2024

DHA Phase 6, Lahore, Pakistan
